

Environmental Policy

Fjord Shipping AS has set the objective to reduce the environmental footprint consequential from her operations and prevent incidental damage to the environment.

The company has identified and assessed all environmental aspects and established a list with significant environmental aspects. And will achieve the reduction in environmental impact by;

- Actively promoting commitment to the environmental policy under all employees;
- To have zero Spills
- Minimise pollution and the environmental impact related to our operations.
- Using a Risk bases approach in avoiding any accidental discharge;
- Reducing the consumption of natural resources and thus emission to the air (SEEMP);
- Effective waste Management (recycling, reducing waste, waste separation)
- Increase environmental awareness by familiarisation and training.

Policy, environmental aspect list and EMP are subjected to review in hence legal, regulatory and customers' requirements, otherwise to be reviewed annually with the Management Review.

Magne Aarvik
General Manager
